

AMENDMENTS TO THE ABSTRACT

Kindly replace the original Abstract with the enclosed Abstract.

ABSTRACT OF THE DISCLOSURE (clean copy)

A content distribution system includes a content receiving device for receiving and reproducing encrypted content created by using a budget provided by a manufacturer. The content receiving device includes a receiving unit for receiving the content, an input unit for inputting a decryption key given as a result of a purchase of a product made by the manufacturer, a decryption unit for decrypting, upon input of the decryption key by the input unit, an encryption of the content received by the receiving unit by use of the decryption key, and a viewing device for reproducing the content decrypted by the decryption unit.

ABSTRACT OF THE DISCLOSURE (mark-up)

~~This invention relates to a content distribution system, a content distribution method and a content receiving device and one of the objects thereof are to enable a higher investment efficiency regarding content of manufacturers. In order to achieve the object, the~~A ~~content distribution system includes a content receiving device (21A, 22A, 23A) for receiving and reproducing encrypted content created by using a budget provided by a manufacturer, the. The content receiving device (21A, 22A, 23A) comprising~~includes ~~a receiving means (94) unit for receiving the content, an input means (93) unit for inputting a decryption key given~~owing as a result of a~~to~~ purchase of a product made by the manufacturer, a decryption means (96) unit for decrypting, upon input of the decryption key by the input means (93) unit, an encryption of the content received by the receiving means (93) unit by use of the decryption key;key, ~~and a viewing means (92) device for reproducing the content decrypted by the decryption means (96) unit.~~
